

LFDAY

The must-attend AgTech and FoodTech event, returns on June 13th !

Press release, may 31st 2023

More than just a trend, agricultural and food innovation in France, Europe and the rest of the world is now serving society, farmers, the environment, local communities and the entrepreneurial sphere... Players in the AgriTech and FoodTech sectors will be meeting in Paris on June 13 to promote, support and accompany innovation in favor of high-performance, sustainable and socially responsible agriculture.

A day punctuated by over 50 expert talks on the theme of the EMERGENCE

La Ferme Digitale will be delighted to bring together its ecosystem and partners. Financing innovation, managing the balance of living organisms, new generation of farmers and new consumption patterns... these are just some of the themes on which French and international experts will be speaking, and sharing their visions with the 2,000 visitors from all over the world. What innovations will enable us to meet the major challenges of today and tomorrow? How can we support entrepreneurs in their economic, social and environmental development? The possibilities are immense!

Now is the time for collaboration and inclusion of viewpoints

Innovative startups, farmers, cooperative groups, agri-food industrialists, investors, researchers, institutions, politicians, the media or simply the curious, we all share common objectives focused on supporting entrepreneurship, food sovereignty, respect for the environment and climate issues, and protecting our farms and crops... so join us, MEET UP!

Au programme :

- More than 50 speakers
- 20 Workshops animated by our experts and partners
- 200 french and international startups
- More than 50 investment funds
- 1 Conference program dedicated to the theme of EMERGENCE
- + 1 Business meeting platform (B2Match) to organize your day as you want!

This 7th edition, under the banner of Emergence, is an opportunity for the entire Ferme Digitale team, its companies, partners and the entire ecosystem to exchange, share and build together around the same values for high-performance, sustainable and socially responsible agriculture.

It's also about discovering the latest innovations that support today's agriculture and tomorrow's.

As Chairman, it is with immense pride that I am able to offer you this wonderful day, which promises to be rich in discussions and discoveries.

Jérôme LE ROY
Chairman of La Ferme Digitale
